Hello, my name is Alden Wyatt, I am a computer science major at Central Washington University. My coursework along with personal projects have given me a strong foundational knowledge of computer science in advanced data structures, programming languages, and from taking a project from an idea to a deployed product.

EDUCATION

Yakima Valley Community College – undergraduate – June 2024

Central Washington University – undergraduate – current

SKILLS

Languages: Java, JavaScript, TypeScript, Python, C++, SQL

Core Competencies: Data Structures & Algorithms, Software Architecture, Object-Oriented Design, Debugging

Developer Tools & Databases: Git, GitHub, VS Code, Supabase, React,

Certifications/Courses: AWS Cloud Practitioner Essentials

PROJECTS

Couple – TypeScript, React, Supabase, SQL, AWS Amplify

A Progressive Web App (PWA) messaging website that allows a paired couple to send small notes and images.

- Created a real-time messaging interface and handled deployment pipeline using AWS Amplify
- Handled paired users messaging and ensuring privacy using row level security

Crunch – TypeScript, React, Supabase, SQL, AWS S3, CloudFront

Workout Tracker web application focused on intuitive design for a smooth user experience.

- Engineered an interactive front end using React state management.
- Created and deployed global site hosting via AWS S3 and CloudFront

Hallower – C++, Raylib

A responsive top-down player movement controller designed with optimization in mind

- Created custom game loop logic, 8-directional input movement and processing collisions.
- Handled different player states and animations.

WORK EXPERIENCE

Subway - Sandwich Artist Selah, Washington • 08/2023 – 06/2024 & 10/2025 – 06/2026

- Provided excellent customer service by taking orders, preparing food with specific modifications, and greeting customers
- Operated cash register, managed transitions, and handled cash effectively

DNR - Wildland Firefighter Yakima, Washington • June – Nov 2024; June – Aug 2025

- Handled fire suppression in a high-stress environment
- Operated and maintained equipment, including hand tools, pumps, and hoses
- Maintained safety standards and worked collaboratively with a team

The Summit - Seasonal Line Cook Snoqualmie Pass, Washington • 01/2025 - 04/2025

- Prepared food in a fast-paced kitchen, while adhering to company standards of food safety and quality
- Prepped and labeled food
